SUMMARY

Motivated and detail-oriented Web Developer specializing in back-end development using Laravel and PHP. Skilled in building RESTful APIs, managing MySQL databases, and integrating modern front-end tools like React.js. Experienced in leading small teams and delivering clean, scalable code following MVC architecture and modern web standards. Currently working on real-world projects including automation systems and school management platforms. Eager to contribute to dynamic development teams and grow within the software industry.

WORK EXPERIENCE

Junior Laravel Backend

Sep 2022 — Present

Currently working on building an online school management system using Laravel , UI authentication , Middleware , Seeder , Blade views , MySQL , HTML , CSS , and JavaScript .

Served as the **team leader** of my graduation project team , overseeing development , task management , and technical coordination .

Full Stack Developer

Jan 2023 — Sep 2024

Developed a restaurant automation system as my university graduation project , following a **microservices architecture** .

The system was built using PHP, Laravel, REST APIs, Passport Authentication , Refresh Tokens , React.js , Axios , React Components , Hooks , CSS , Bootstrap , and a MySQL database.

Web Developer

Worked on simple to intermediate-level projects at an internet company in Iraq , using front-end technologies : HTML , CSS , JavaScript (ES6) , and React.js.

SKILLS

Backend Technologies : PHP , Laravel , Mysql , Restfull Api, Problem Solving , Git & Github , Postman .

Frontend Technologies : Html , Css , Javascript (Es6) , Bootstrap , React.Js , Responsive Design .

Concepts : OOP , Clean Code , MVC Architecture , Data Structures , Agile (Scrum) , Web Server (Apache) , Version control , Database Design .

EDUCATION

Damascus University , Faculty of Information Engineering .

Bachelor's degree Oct 2023
